INTRODUCTION

The report examines the monthly inflation rate performance of individual SACU Member States and selected international economies. The report also looks at the trend in oil prices and the world food prices using the Food and Agricultural Organisation (FAO) Food Price Index.

The Consumer Price Index (CPI) is used as the basis to calculate the rate of inflation as experienced by consumers. The inflation rate measures the change in the CPI for the month under review to the previous month (month-on-month change) as well as to the same month in the previous year (year-on-year change). The inflation rate is vital for purposes of economic policy-making, especially the conduct of monetary policy and to consumers in general. It is further used in a wide variety of public and private contracts for the purposes of adjusting payments (such as wages, rents, interest and social security benefits).

For the month of February 2017 compared to the preceding month, it was observed that consumer prices decelerated in Namibia, South Africa and Swaziland, while prices increased in Botswana and Lesotho.

Inflation Rate in SACU Member States

Consumer prices eased in Namibia, South Africa and Swaziland during the month of February 2017 when compared to January 2017, while prices increased in Botswana and Lesotho. **Map I** shows that Namibia recorded the highest change in consumer prices in February 2017 at 7.8 per cent followed by Swaziland at 6.8 per cent, South Africa at 6.3 per cent, Lesotho at 5.2 per cent, and Botswana at 3.4 per cent. All Member States continued to record a single digit annual inflation rate during the month of February 2017.

Source: Member States Statistics Offices; (BW-Botswana; LS –Lesotho; NA-Namibia; ZA-South Africa; SZ- Swaziland)

By end of February 2017, monetary policy stance in Member States remained generally accommodative with the repo rate / bank rate¹ ranging between 5.50 per cent and 7.25 per cent, as depicted in **Chart I**. Monetary stance was unaltered between February 2017 and January 2017 in all Member States. During the month of February 2017, the highest prime lending rate was observed in Lesotho at 11.69 per cent, followed by Namibia at 10.75 per cent, Swaziland (10.75 per cent), South Africa (10.50 per cent), and Botswana (7.00 per cent).

¹ Bank rate is the rate at which the Central Bank lends to Commercial Banks

Chart I: Member States' Repo/Bank rates

In **Botswana**, the annual inflation rate continued with an upward trend, rising by 3.4 per cent in February 2017 from 3.1 per cent in the preceding month, as reflected in **Chart 2**. The annual rate in February 2017 was higher than the 3.0 per cent recorded during the similar month in 2016. The increase in the annual inflation rate to 3.4 per cent between February 2017 and February 2016 was mainly reflected in *transport (0.7 per cent compared to -3.2 per cent in February 2016)* which accounts for 20.65 per cent of the overall inflation basket. Inflation rates of the main categories based on the basket weights shows that *food & non-alcoholic beverages* rose by 4.2 per cent in February 2017 as opposed to 1.5 per cent during the corresponding month in 2016, while, *housing & utilities* recorded an increase of 3.8 per cent compared to a rise of 9.7 per cent in February 2016.

On average, consumer prices increased by 0.2 per cent between February 2017 and January 2017. The annual inflation rate recorded in February 2017 was within the inflation target range of 3 – 6 per cent set out by the Bank of Botswana.

In **Lesotho**, the annual inflation rose by 5.2 per cent in February 2017 compared to 5.0 per cent in the preceding month as reflected in **Chart 3**. A year earlier inflation rate was 6.6 per cent during the corresponding month. The deceleration in the annual inflation rate between February 2017 and February 2016 was mainly due to the decline in cost of *food & non-alcoholic beverages* (7.0 per cent down from 11.5 per cent in February 2016) that accounts for 38.1 per cent of the overall inflation basket. The other main categories based on the basket weights, the *clothing & footwear* category reflected that prices increased by 2.7 per cent in February 2017, while the prices of the third main category, *housing & utilities* rose by 7.5 per cent. On average, prices increased by 0.3 per cent between February 2017 and January 2017.

In **Namibia**, the annual inflation rate eased to 7.8 per cent in February 2017 from 8.2 per cent in the preceding month. A year earlier inflation rate was 6.1 per cent during the corresponding month as reflected in **Chart 4**. The acceleration in annual inflation rate between February 2017 and February 2016 was mainly reflected in *housing & utilities* (9.6 per cent up from 7.4 per cent in February 2016) and *food & non-alcoholic beverages* (11.3 per cent up from 7.2 per cent in February 2016) which accounts for 28.36 per cent and 16.45 per cent respectively, of the overall inflation basket. The other main category based on the basket weight, the *transport* category recorded an increase in prices of 4.7 per cent in February 2017. On average, prices increased by 0.2 per cent between February 2017 and January 2017.

In **South Africa**, the annual inflation rate eased to 6.3 per cent in February 2017 from 6.6 per cent recorded in the previous month as depicted in **Chart 5**. The annual rate in February 2017 was lower than the 7.0 per cent recorded during the similar month in 2016. The main contributors to the annual inflation rate in February 2017 were *food & non-alcoholic beverages (1.7 percentage points)* and *housing & utilities (1.4 percentage points)*. On average, prices increased by 1.1 per cent between February 2017 and January 2017. The annual inflation rate continued to be above the target range of 3-6 per cent set out by the South African Reserve Bank.

FAO Food Price Index

Chart 8 shows that the FAO Food Price Index² averaged at 175.8 points in February 2017, up by 0.9 points from February value. With the exception of vegetable oils and sugar, the indices of all other commodities used in the calculation of the FAO Food Price Index increased in February, especially of cereals. The FAO Cereal Price Index averaged at 150.5 points in February, up by 2.5 percent from January 2017. Wheat quotations gained 3 per cent on stronger pace in trade activities, while the increase in maize values were less significant, but strong demand kept prices firm. International rice prices firmed for the third successive month, mostly reflecting currency movements.
