INTRODUCTION

The report examines the monthly inflation rate performance of individual SACU Member States and selected international economies. The report also looks at the trend in oil prices and the world food prices using the Food and Agricultural Organisation (FAO) Food Price Index.

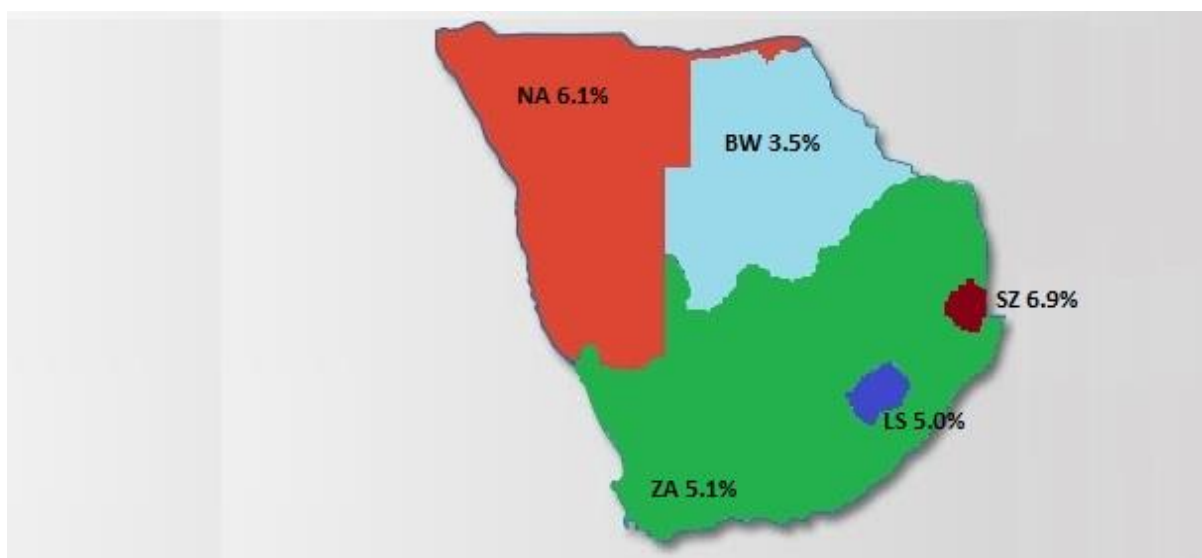

The Consumer Price Index (CPI) is used as the basis to calculate the rate of inflation as experienced by consumers. The inflation rate measures the change in the CPI for the month under review to the previous month (month-on-month change) as well as to the corresponding month in the previous year (year-on-year change). The inflation rate is vital for purposes of economic policy-making, especially the conduct of monetary policy and to consumers in general. It is further used in a wide variety of public and private contracts for the purposes of adjusting payments (such as wages, rents, interest and social security benefits).

For the month of June 2017 compared to the preceding month, it was observed that Swaziland recorded the highest change in consumer prices at 6.9 per cent followed by Namibia at 6.1 per cent, South Africa at 5.1 per cent, Lesotho at 5.0 per cent, and Botswana at 3.5 per cent. All Member States continued to record a single digit annual inflation rate during the month of June 2017.

Inflation Rate in SACU Member States

Consumer prices eased in all Member States with exception of Botswana where prices remained unchanged. **Map I** shows that Swaziland recorded the highest change in consumer prices in June 2017 at 6.9 per cent followed by Namibia at 6.1 per cent, South Africa at 5.1 per cent, Lesotho at 5.0 per cent, and Botswana at 3.5 per cent. All Member States continued to record a single digit annual inflation rate during the month of June 2017.

By the end of June 2017, monetary policy stance in Member States continued to remain accommodative with the repo rate / bank rate¹ ranging between 5.50 per cent and 7.25 per cent, as depicted in **Chart I**. Monetary stance was unaltered between June 2017 and May 2017 in all Member States. During the month of June 2017, the highest prime lending rate was observed in Lesotho at 11.69 per cent, followed by Namibia at 10.75 per cent, Swaziland at 10.75 per cent, South Africa at 10.50 per cent, and Botswana at 7.00 per cent.

¹ Bank rate is the rate at which the Central Bank lends to Commercial Banks

In **Botswana**, the annual inflation rate increased by 3.5 per cent in June 2017 unchanged from the preceding month, as reflected in **Chart 2**. The annual rate in June 2017 was higher than the 2.7 per cent recorded during the similar month in 2016. The increase in the annual inflation rate to 3.5 per cent between June 2017 and June 2016 was mainly reflected in the rising prices in *transport (1.5 per cent compared to -2.9 per cent in June 2016)* which accounts for 20.65 per cent of the overall inflation basket. Inflation rates of the main categories based on the basket weights shows that *food & non-alcoholic beverages* rose by 4.3 per cent in June 2017 as opposed to 2.6 per cent during the corresponding month in 2016, while, *housing & utilities* recorded an increase of 6.0 per cent compared to 5.8 per cent in June 2016.

On average, consumer prices increased by 0.2 per cent between June 2017 and May 2017. The annual inflation rate recorded in June 2017 continued to be within the inflation target range of 3 – 6 percent set out by the Bank of Botswana.

In **Lesotho**, the annual inflation rate increased by 5.0 per cent in June 2017 compared to 5.3 per cent in the preceding month as reflected in **Chart 3**. A year earlier inflation rate was 7.5 per cent during the corresponding month. The deceleration in the annual inflation rate between June 2017 and June 2016 was mainly due to the decline in the cost of *food & non-alcoholic beverages* (6.5 per cent down from 13.8 per cent in June 2016) that accounts for 36.1 per cent of the overall inflation basket. The other main categories based on the basket weights, the *clothing & footwear* category reflected that prices increased by 2.6 per cent in June 2017, while the prices of the third main category, *housing & utilities* rose by 5.5 per cent. On average, prices increased by 0.3 per cent between June 2017 and May 2017.

In **Namibia**, the annual inflation rate continued to ease, recording an increase of 6.1 per cent in June 2017 compared to 6.3 per cent in the preceding month. A year earlier inflation rate was 6.7 per cent during the corresponding month as reflected in **Chart 4**. The deceleration in the annual inflation rate between June 2017 and June 2016 was mainly reflected in *food & non-alcoholic beverages* (4.6 per cent down from 11.3 per cent in June 2016) which accounts for 16.45 per cent of the overall inflation basket. The other main categories based on the basket weight, the *housing & utilities* and *transport* categories recorded an increase in prices of 9.8 per cent and 5.0 per cent, respectively in June 2017. On average, prices increased by 0.1 per cent between June 2017 and May 2017.

In **South Africa**, the annual inflation rate increased by 5.1 per cent in June 2017 compared to 5.3 per cent recorded in the previous month as depicted in **Chart 5**. The annual rate in June 2017 was lower than the 6.3 per cent recorded during the similar month in 2016. The main contributors to the annual inflation rate in June 2017 were *housing & utilities* (1.4 percentage points) and *food & non-alcoholic beverages* (1.2 percentage points). On average, prices increased by 0.2 per cent between June 2017 and May 2017. The annual inflation rate in June 2017 remained within the target range of 3-6 per cent set out by the South African Reserve Bank.

In **Swaziland**, the annual inflation rate rose by 6.9 per cent in June 2017 compared to 7.1 per cent in the preceding month as indicated in **Chart 6**. Annual inflation rate in June 2017 was lower than the 7.5 per cent recorded during the similar month in 2016. The main contributor to the deceleration in prices between June 2017 and June 2016 was mainly the cost of *food & non-alcoholic beverages* (8.5 per cent down from 13.9 per cent in June 2016) which accounts for 29.22 per cent of the overall inflation basket. The other main categories in the basket based on the weight, the *housing & utilities* and *transport* increased by 8.0 per cent and 3.5 per cent, respectively, in June 2017. On average, prices declined by 0.2 per cent between June 2017 and May 2017.

Inflation Rate for Selected Economies

Chart 7, indicates inflation rates in selected economies for the month of June 2017. In **Brazil** consumer prices continued to decelerate, recording a rate of 3.0 per cent in June 2017 compared to 3.6 per cent in the preceding month, and 8.8 per cent in June 2016. While in the **UK**, inflation rate rose by 2.6 per cent compared to 2.9 per cent in previous month and the rate was 0.5 per cent in June 2016. In the **USA**, inflation rate rose by 1.6 per cent in June 2017 compared to 1.9 per cent in May 2017, and 1.0 per cent in June 2016. In June 2017 consumer prices in **China** rose by 1.5 per cent unchanged from the preceding month while the rate was 1.9 per cent during a similar month in 2016. **Euro area** annual inflation was 1.3 per cent in June 2017, down from 1.4 per cent in May 2017, while the rate was 0.1 per cent in June 2016.

FAO Food Price Index

Chart 8 shows that the FAO Food Price Index² (FFPI) averaged at 175.2 points in June 2017, up by 1.4 per cent from May and 7.0 per cent higher than its level in June 2016. The rise was largely driven by increases in dairy and cereal prices. Meat quotations also firmed, while those of sugar and vegetable oils dropped. The FAO Dairy Price Index averaged at 209 points in June 2017, up by 15.9 points from May 2017. Similarly, the FAO Cereal Price Index averaged at 154.3 points in June, up by 6.2 points above its May level.
