FAO Food Price Index

The Food and Agricultural Organisation (FAO) Food Price Index¹ averaged 179.4 points in February 2015, down by 1.8 points from its level in January 2015. The downward impact was observed in cereals, meat and sugar, while prices of oil products stayed virtually unchanged while prices of dairy products rebounded sharply. The index has been on a downward trend since April 2014 as depicted on Chart 1.

Chart 1: FAO Food Price Index

Source: Food and Agriculture Organization of the United Nations

The FAO Cereal Price Index averaged 171.7 points in February 2015, down by 5.6 points from January 2015, primarily driven by a reduction in wheat prices. The sharp fall in wheat prices reflects confirmation of an ample supply during the season. The FAO Vegetable Oil Price Index averaged 156.6 points in February 2015, up by 0.4 per cent from January 2015. The small gain prices were driven by palm oil while soy oil prices continued to decline. The FAO Dairy Price Index averaged 181.8 points in February 2015, up by 8.0 points from its level in January 2015. Whole milk powder registered the strongest increase, followed by skimmed milk powder and butter; cheese quotations remained unchanged. A drought induced fall in milk output in New Zealand, combined with limited exports supplies in Australia is the principal cause for the sudden rise in world dairy prices.

¹ Food Price index: consist of the average of 5 commodity group price indices (meat, dairy, cereals, oil & fat, and sugar) weighted with the average export share of each of the groups for 2002-2004

The FAO Meat Price Index averaged 187.4 points in February 2015, down by 2.8 points from its level in January 2015. The drop in prices was mainly caused by lower bovine and ovine meat quotations, while poultry meat prices were unchanged and those of pig meat recovered after straight eight months of decline. Similarly, the FAO Sugar Price Index averaged 207.1 points in February 2015, down by 10.6 points from January 2015. The decline mainly reflected improved crop prospects in Brazil following recent rainfalls in the main producing region of the country.

Selected Commodity Prices

Brent crude oil price closed at USD55.10 per barrel at the end of February 2015, which was 12.7 per cent lower than at the end of January 2015, and lower than the USD108.39 per barrel recorded at the end of February 2014 as highlighted in Chart 2.

Inflation Rate for Selected Economies

Euro Area

Euro area recorded an annual deflation of 0.3 per cent in February 2015, compared to a deflation rate of 0.6 per cent recorded in January 2015. A year earlier the rate was 0.7 per cent. The largest upward impacts to annual rate came from restaurants & cafes (0.12 percentage points), rents (0.11 percentage points) and tobacco (0.07 percentage points), while fuels for transport (-0.64 percentage points), heating oil (-0.19 percentage points) and telecommunications (-0.06 percentage points) had the biggest downward impact. The annual rate recorded for February 2015 was below the European Central Bank inflation target of below but close to 2.0 per cent.

United Kingdom

The annual inflation rate was stagnant in February 2015 from 0.3 per cent registered in January 2015. The rate was 1.7 per cent during a similar period a year earlier. The main components with the highest annual rates were *education (10.0 per cent)*, *alcohol beverages & tobacco (3.8 per cent)*, and *restaurants & hotel (2.2 per cent)*, while the lowest annual rates were observed in *food & non-alcoholic beverages (-3.3 per cent)* and *transport (-2.7 per cent)*. The annual inflation rate for February 2015 remained below the Bank of England's inflation target of 2.0 per cent.

USA

The world's largest economy annual inflation was stagnant in February 2015 from a deflation rate of 0.1 per cent in the preceding month. The rate was 1.1 per cent during the similar period a year earlier. The index for all items less food and energy rose by 1.7 per cent in February 2015, compared to 1.6 per cent in the preceding month. The food index rose by 3.0 per cent in February 2015 compared to 3.2 per cent in the preceding month. The energy index registered a decline of 18.8 per cent in February 2015 compared to a decline of 19.6 per cent in the preceding month. The inflation rate for February 2015 remained below the Federal Reserve Bank's long- term inflation estimate of 2.0 per cent.

Brazil

The annual inflation rate was 7.7 per cent in February 2015, up from 7.1 per cent in the preceding month. The rate was 5.7 per cent during the similar period a year earlier. The annual rate recorded for February 2015 continued to be above the Brazilian Central Bank inflation target of 4.5 per cent with a floating range of 2 percentage points.

China

The annual inflation rate rose by 1.4 per cent in February 2015, up from 0.8 per cent in the preceding month. The rate was 2.5 per cent during the similar period a year earlier. The main components with the highest annual rates were *clothing (2.9 per cent)*, and *food (2.4 per cent)*, while the lowest annual rates were observed on *transport & communication (-1.7 per cent)*. The annual inflation rate for February 2015 continued to be below the Government's inflation target of 3.0 per cent.

India

India recorded a deflation of 2.1 per cent in February 2015 compared to a deflation of 0.4 per cent in the preceding month and 5.1 per cent during the corresponding month of the previous year. All major commodity groups declined in February 2015, *fuel & power (-4.4 per cent)*, *primary articles (-1.9 per cent)* and *manufactured products (-0.3 per cent)*. The rate registered during February 2015 continued to be below the Reserve Bank target range of 4.0 – 4.5 per cent.

Inflation Rate in SACU Member States

For the month of February 2015, consumer prices continued to ease in all Member States. Swaziland registered the highest annual inflation rate among the Member States registering inflation rate of 5.0 per cent followed by South Africa at 3.9 per cent, Namibia at 3.6 per cent, and Botswana at 2.8 per cent. While, Lesotho recorded the lowest inflation rate of 2.1 per cent. All Member States continued to record a single digit annual inflation rate during February 2015 as shown on Chart 6.

Chart 6: Annual Inflation Rates (%) in SACU Member States

Source: Member States Statistics Offices

In **Botswana**, the annual inflation rate eased to 2.8 per cent in February 2015 down from 3.6 per cent the preceding month. The annual rate in February 2015 was lower than the 4.6 per cent recorded during the similar month in 2014. The fall in the annual inflation rate between February 2014 and February 2015 was mainly due to the fall in prices experienced in *transport* category (-5.5 per cent from 1.9 per cent in February 2014) which accounts for 18.98 per cent of the overall inflation basket. On average, prices fell by 0.4 per cent between January 2015 and February 2015. The annual inflation rate was below the inflation target range of 3 – 6 per

cent set out by the Bank of Botswana. During the month of February 2015 the bank rate² changed to 6.5 per cent and similarly the prime rate changed to 8.0 per cent.

In **Lesotho**, the annual inflation rate eased to 2.1 per cent in February 2015 compared to 2.7 per cent in the preceding month. A year earlier inflation rate was 5.7 per cent during the corresponding month. The deceleration of annual inflation rate between February 2014 and February 2015 was mainly due to the drop in prices for *housing & utilities* (-10.7 per cent down from 12.9 per cent in February 2014) and *transport* (-0.4 per cent down from 13.9 per cent in February 2014). On average, prices fell by 0.1 per cent between January and February 2015. Lesotho monetary policy targets the maintenance of adequate net international reserves (NIR). The NIR target is set to a minimum of USD0.600 billion, which translates to M6.95 billion, a target that is consistent with the maintenance of the exchange rate peg between the Loti and the Rand. During the month of February 2015 the Lombard facility stood at 10.11 per cent, while the prime lending rate was recorded at 10.25 per cent.

In **Namibia**, the annual inflation rate eased to 3.6 per cent in February 2015, down from 4.5 per cent in the preceding month. A year earlier inflation rate was 5.2 per cent during the corresponding month. The deceleration in annual inflation rate between February 2014 and February 2015 was mainly reflected in *transport* (-2.6 per cent down from 7.3 per cent in February 2014), and *food & non-alcoholic beverages* (6.6 per cent down from 7.2 per cent in February 2014). On average, prices fell by 0.2 per cent between January and February 2015. During the month of February 2015, the repo rate changed to 6.25 per cent, and similarly the prime rate was set at 10.00 per cent.

In **South Africa**, the annual inflation rate eased to 3.9 per cent in February 2015, down from 4.4 per cent in the previous month. The annual rate in February 2015 was lower than the 5.9 per cent recorded during the similar month in 2014. The main contributors to the annual inflation rate in February 2015 were *housing & utilities* (1.3 percentage points) and *miscellaneous goods & services* (1.2 percentage points). On average, prices increased by 0.6 per cent between January and February 2015. The annual inflation rate continued to remain within the target range of 3-6 per cent set out by the South African Reserve Bank. Interest rate policy remained accommodative for growth with the repo rate at 5.75 per cent in February 2015 and the prime rate at 9.25 per cent.

² Bank rate is the rate at which the Central Bank lends to Commercial Banks

In **Swaziland**, the annual inflation rate eased to 5.0 per cent in February 2015 down from 5.6 per cent in the previous month. Annual inflation rate in February 2015 was higher than the 4.7 per cent recorded during the similar month in 2014. The rise in annual inflation rate between February 2014 and February 2015 was mainly due to the increase in prices for *food & non-alcoholic beverages (5.2 per cent up from 4.5 per cent in February 2014)* and *transport (9.9 per cent up from 1.7 per cent in February 2014)* which accounts for 29.2 and 10.5 per cent of the overall inflation basket, respectively. On average, prices increased by 0.9 per cent between January and February 2015. Interest rate policy remained accommodative for growth in February 2015 with the bank rate recorded at 5.25 per cent, and the prime rate at 8.75 per cent.
